TP courses

- Refer to [TP website](#) and/or JAE 2021 Booklet for more information on TP courses.
- Check if you meet the [medical requirements](#) of the courses, which can be related to colour vision, hearing and other medical conditions.
- If you have any enquiry on support for students with Special Educational Needs (SEN), please contact SEN Support Office at 6780 5959 or email care@tp.edu.sg.

2. Know your net ELR2B2 aggregate scores

- Polytechnic courses are grouped under the Aggregate Types of ELR2B2-A, ELR2B2-B, ELR2B2-C and ELR2B2-D. The ELR2B2 score is computed based on the aggregate of English Language (EL), 2 relevant subjects (R2) and 2 other best subjects (B2).
- Find out more about the 'O' Level subjects used for ELR2B2 computation and the courses under the respective aggregate types at [TP website](#).
- Applicants who are active in their secondary school's Co-curricular Activities (CCA) can gain up to 2 CCA bonus points that are used to compute the net ELR2B2 aggregate scores.

CCA Grade	CCA Bonus Points Awarded
Excellent	2 points
Good	1 point

Net ELR2B2 Aggregate Score = Raw ELR2B2 Aggregate Score – CCA Bonus Points

- Posting to polytechnic courses will be based on the net ELR2B2 aggregate score, subject to the availability of the course vacancies.

3. Know the course intake & the previous year's range of aggregate scores for each course

- Course intake indicates the number of places that each course is offering for the coming intake.
- The range of aggregate scores shown in the JAE Information Booklet and TP website indicates the lowest and highest net ELR2B2 aggregate scores of the successful applicants posted to each course through the previous year's JAE. This information on aggregate scores is meant to be a reference to guide you in your selection. Course intake and range of aggregate scores give you an indication of the likely competitiveness for each course. Please note that the information on the previous year's ranges of aggregate scores is meant to be a guide only. The 2021 JAE's ranges of aggregate scores will only be determined upon JAE posting.
- You may check out the Course Intakes and the previous year's aggregate scores at [TP website](#).

4. Utilise all your 12 choices well

- You are given 12 choices in JAE. It is important to fully utilise all your 12 choices.
- For your top few choices for JAE, you may wish to select those TP courses that you are passionate about and for which your net ELR2B2 aggregate score is less than or equal to the previous year's highest aggregate score of the course or not too far above the highest score.
- To maximise the likelihood of being posted to a course of your JAE choices, you should ensure that, for some of your selected courses, your net ELR2B2 aggregate score falls below the previous year's highest aggregate scores of those courses.
- It is important to rank the courses in the order of your preference. Secondly, check that the order of your preference is generally consistent with how likely it is to get into the different courses. For example, you should consider that if you put as your 1st choice a course with previous year's highest aggregate score of 15 points, followed by some courses that had highest scores of 12 points and below as your subsequent choices, it is highly possible that if you are not posted to your 1st choice course, you will also not get the next few courses.

5. Online/Onsite Course Counselling

- a) Book your online slot or come by TP JAE Centre during the JAE application period to get more information and advice from our course advisors.
