

ASTI Pte Ltd.

ASTI Pte Ltd is a leading Singapore-based engineering and construction company specializing in Mechanical & Electrical (M&E) engineering, cleanroom facilities, laboratories, pharmaceutical plants, semiconductor facilities and data centre projects.

As part of our continued growth, we are seeking motivated and capable graduates from the Singapore Institute of Technology to join our Commercial Department as Assistant Quantity Surveyors.

The successful candidates will be exposed to a wide range of responsibilities, including:

- Quantity take-offs and cost estimation
- Tender preparation and evaluation
- Subcontract procurement and contract administration
- Progress claims, variation orders and final account preparation
- Cost control and project financial management
- Commercial support for M&E, cleanroom and data centre projects

We welcome applications from graduates in:

- Quantity Surveying
- Construction Management
- Building Services Engineering
- Infrastructure Engineering
- Mechanical Engineering
- Electrical Engineering
- Other relevant Built Environment disciplines

At ASTI, graduates will have the opportunity to work alongside experienced professionals and gain exposure to complex and high-value projects across Singapore's advanced manufacturing, pharmaceutical and data centre sectors. We would greatly appreciate your assistance in circulating our employment opportunities to graduating students and alumni. We are also open to participating in career fairs, recruitment events, industry talks and internship programmes organised by the university.
