Embedding JoVE Videos in LMS

Videos in JoVE Science Education can be embedded in TP LMS. Simply follow the steps below!

TP subscribes to Science Education: General Laboratory Techniques, Basic Methods in Cellular and Molecular Biology, Biology 1: Yeast, DROSOPHILA and C. ELEGANS and Biology 2: Mouse, Zebrafish, and Chick.

1. Mouse over the green tab of Science Education, and then click on Basic Biology.

2. Click on the collection that contains the video you want to embed.

3. At your desired video, Click on Embed button.

4. Copy all the codes

5. In your LMS module, Create an Item. Under its content information, click on the HTML code button.

6. Paste the codes you had copied during Step 2, into the HTML Code view. Click on Update.

7. All done! Your video is embedded in the LMS module page. Students can now watch the assigned videos easily from your LMS page.

If you face problems embedding videos with the above steps, email asklib@tp.edu.sg.
